

Lightning Warning

Lightning is a severe hazard that must be viewed seriously. Everyone should immediately seek shelter any time they believe lightning threatens them, even if a signal has **not** been sounded.

You will be warned by our Thor Guard Lightning Prediction System, which sounds one 15 second blast of the horn signaling suspension of all activities.

A strobe light will also begin flashing and remain flashing until safe conditions return. You should immediately leave the basin and seek an appropriate, safe shelter.

You may resume activities only after three 5 second blasts of the horn are sounded and the strobe light stops flashing.

If you remain outdoors after the warning is issued, you do so at your own risk!!!

Lightning Safety Tips

SEEK

- * Large Buildings
- * Lightning Shelters
- * Automobiles/Trucks
- * Tunnels With No Standing Water

AVOID

- * Open Areas
- * Water
- * Tall Trees
- * Metal Fences
- * Overhead Wires and Power Lines
- * High Ground Areas
- * Telephone & Cellular Phones
- * Radios
- * Small, Unprotected Shelters
